

V.E.S. Value Engineered Systems

V.E.S. is office furniture that helps your business do more – more productivity, more employee efficiency and inevitably more employee satisfaction. All while costing less. Delivering on all fronts, V.E.S. promises to be the most cost-effective systems furniture in its class.

Manufactured in Canada, V.E.S. ensures optimal product quality and compliance with North American standards.

V.E.S. requires half the installation time of traditional panel systems reducing the down time and the end users cost of acquiring product.

Starting at \$1399 per station.

🇨🇦 Proudly Canadian

Starting at \$1899 per station.

Starting at \$525 per station.

Integration.

V.E.S. is available in a wide variety of fabric and laminate color choices promoting seamless integration into any work environment and complementing any corporate culture.

Privacy and light.

69-inch panels provide privacy while glazed panels provide access to natural light.

Panel envy.

Available in 6' and 7' wide panels, V.E.S. provides excellent acoustics and sound transmission allowing privacy for users and increasing productivity and satisfaction.

Affordable.

V.E.S. features a 3/8-inch solid wood trim enhancing the overall aesthetic and adding sophistication at a low price point.

Coast is productivity at work.

Coast seating is a practical solution for most growing offices or call centers. Attractive and affordable, Coast is available in a variety of configurations and provides comfort to employees, whatever their functional requirements.

Coast resolves a number of general office seating requirements, from reception to operator and everything in between.
